PROSPECTUS

OF THE FARMERS' GAZETTE

AND AN ADVERTISER.

The Editor of the Cheraw Gazette has determined, at the suggestion of the Pee Dee Agricultural Society, to devote more space than formerly to Agriculture, and matters pertaining specially to its interests. About nine columns, or a page and a half weekly, will be occupied with this subject, except when it shall be necessary to make room for Executive Messages, and a few other political papers such as every intelligent citizen ought to read. A large proportion of what shall appear under the Agricultural head must, of course, be selected. But the numerous Agricultural periodicals now published in this country afford abundant and excellent materials for selection; and, after a short time, the reports, and other papers of the Pee Dee Agricultural Society will of themselves, form no inconsiderable body of original matter, all of it adapted particularly to this part of the country. And it is hoped, also, that among the numerous intelligent and enterprising planters of the surrounding districts and counties some may be found who will, occasionally, take the trouble of contributing to the columns of the paper the result of their experience.

Among the subjects which will engage the Editor's attention the culture of silk shall not be overlooked. Ample instructions will be given, in their proper season, for cultivating the morus mullicaules and making silk.

The paper will espouse the cause of no party in politics, but shall contain an impartial summary of political intelligence, and, occasionally, (when met with) fairly discussing the principles and measures of all parties. It is believed that a comparatively small space devoted to political subjects in this way may be made more profitable to the Farmer of domestic habits, who wishes to be acquainted with the true state of the country and qualified for a proper and intelligent discharge of the duties of citizenship, than a whole sheet filled, from week to week, and year to year, with one-sided discussions, and the mere quarrels of editors and politicians,—whilst, at the same time, it will not be calculated to estrange neighbor from neighbor, or to mislead into a belief that one half of the country are less patriotic than the other, or less ardently attached to our republican institutions.

So much of the fourth page as shall not be occupied with standing advertisements will generally be filled up with matter of moral and religious cast, and articles conducive, in other respects, to proper family instruction and family discipline.

If the increase to the subscription list upon issuing this Prospectus shall be sufficient to warrant the expense, new type will be procured, forthwith, for the body of the paper; that is for the part now printed in large letter; and at the commencement of the next volume the title of the paper will be changed to Farmers' Gazette and Cheraw Advertiser.

For Terms see first page.

September, 1839.
